

nutrition through innovation

# Finfish Trout

Meeting your nutritional needs for **successful aquaculture!**

The Zeigler **Finfish Trout** program provides several trout feed options to meet the needs of today's diverse production operations. Whether you are producing stocker fish for the sportfish industry or fillets for the food service industry, Zeigler has the right product to help farmers achieve their goals.

**Trout Hi-Performance** is feed is designed with the food-fish producer in mind where oxygen and water conditions support fast growth. This diet utilizes highly digestible marine, animal, and plant-based ingredients to optimize performance and minimize waste. Zeigler stringently formulates to ideal phosphorus levels to assist with EPA discharge compliance.

**Trout Grower** is a diet developed for warmer water conditions. Varying water temperature is the most impactful environmental parameter on your production. With a lower

protein to energy ratio, this diet helps to maintain feed consumption and growth without overtaxing the limited oxygen during periods of elevated water temperature.

**Sportfish** is specifically formulated for stocking of fish for recreational purposes. With added vitamins, minerals, and pigments to promote skin quality and fin development, this diet is the perfect choice to promote healthy, active fish for any sports club.

Zeigler **Starter & Fingerling** feeds have been the industry standard for many years. Today, all our Starter feeds contain Vpak, an all-natural immunostimulant that supports juvenile development and promotes higher survivals in stressful culture conditions.

- Inclusion in starter feeds reported to improve survivals and yields in grow-out.
- Proactive mechanism for fighting viruses and pathogens.
- All-natural alternative to antibiotics; Safe, biodegradable and residue-free.

	Finfish "G" (Trout Grower)	42	16	1.9	12	8	1.1	●	3, 5	<ul style="list-style-type: none"> <li>SS: Diet recommended for trout grown in warmer water environments</li> </ul>
	Whole Foods Trout Grower	42	16	3.0	12	8	0.7	●	3, 5, 6.5	<ul style="list-style-type: none"> <li>Formulated to meet Whole Foods Standards for Salmonid feeds. High available phosphorus for environmental compliance.</li> </ul>
Broodstock	Finfish Broodstock	38	10	3.5	12	10	1.2	●	6.5	<ul style="list-style-type: none"> <li>Designed to enhance the fecundity of your broodfish by helping maximize gonadal development. Contains vitamin and carotenoid pigment supplements required for viable egg and sperm development.</li> </ul>

## PACKAGING

Bags, Super sacks and Bulk

Contact a Zeigler representative for specific pellet sizes and packaging information.

## FEATURES & BENEFITS

- Formulated for maximizing growth and reduced visceral fat deposition.
- Ingredient selection based on true finfish digestibility testing.
- Balanced amino acid profile; Low carbohydrate level.
- Phosphorus levels below 1.2%.
- Meets FDA requirements regarding restrictions on mammalian protein sources.
- Contains Vpak (Vitality Pak) – a all-natural nutritional additive that promotes improved survivals.

## SUSTAINABLE & TRACEABLE

- Use of renewable plant proteins and oils
- Incorporation of fish by-products from human food processing
- Optimal levels of high-quality marine proteins and oils
- Utilization of natural, bioactive compounds to improve animal health and further reduce the need for farms to use chemicals and antibiotics
- Maximizing the use of locally supplied ingredients

## INGREDIENTS

A stringent purchasing program holds our suppliers to a higher standard with pre-established specifications, site visits, and ingredient testing. This careful oversight, record keeping, and quality control continues through the supply chain. Zeigler products meet an array of standards, and are manufactured in a facility utilizing a quality management system that is ISO 9001:2015 registered. In addition, Zeigler meets requirements set by the U.S. Food and Drug Administration (FDA), the U.S. Department of Agriculture (USDA), the Pennsylvania Department of Health.

## PRODUCT STORAGE INSTRUCTIONS

- Store in a cool, dry place away from sunlight
- Check packaging for manufactured dates
- Rotate stock to use oldest product first ("first in, first out" principle)
- If receiving skids of feed, remove plastic wrap to prolong life of product
