

Adult Bearded Dragon

MONSTERDIETS

1/4"
soft-moist
pellets

Bearded dragons are omnivorous, eating a variety of live prey and vegetable matter in the wild. Balancing a diet, which mirrors a bearded dragon's natural food in the wild, is difficult in captivity. Farm raised feeder insects and grocery store produce are limited in nutritional value and guessing on the amount of vitamin/mineral supplementation necessary can be detrimental to the long-term health of your pet.

Adult Bearded Dragon MonsterDiet™ is scientifically formulated to provide essential nutrients required for optimal growth, color, and health of actively growing adult bearded dragons. This diet was developed by leading zoo nutritionists/veterinarians and tested by major US bearded dragon breeders. Adult Bearded Dragon MonsterDiet™ utilizes natural grains and ingredients such as dandelion greens, carrot, celery, beet, parsley, lettuce, watercress, and flax seed to provide the nutrients required during the most crucial of developmental periods and for healthy, long-term maintenance of mature animals.

FEATURES & BENEFITS

- No need to maintain feeder insect colony thereby reducing the risk of introducing pathogens which could negatively affect the health of your animal.
- Formulated with an optimal Calcium/Phosphorous ratio to help prevent Metabolic Bone Disease.
- Provides 100% of Daily Nutritional Requirements.
- Supplemented with Vitamin D3 to compensate for limited natural light exposure, although additional UV light is recommended.
- Formulated with a stabilized form of Vitamin C to enhance your animal's natural immune system.

PRODUCT APPLICATION & STORAGE

- Formulated as a complete maintenance diet for bearded dragons, this diet should be fed free choice. Bearded Dragons will learn to eat from dishes if initially mixed with green vegetables. Fresh green leaves and vegetables may be offered as an occasional treat but should constitute only a minor portion of the diet. Fresh clean water should be available at all times.
- Shelf Life: Two (2) years from date of manufacture
- Store in a cool, dry area away from sunlight. Rotate stock to use oldest feed first. "First in, first out" principle.

INGREDIENTS

Soy Hulls, Poultry By-Product Meal, Wheat Flour, Corn Gluten Meal, Flax Seed Meal, Beet Pulp, Dehulled Soybean Meal, Strawberry Flavoring, Soy Lecithin, Cane Molasses, Carrot Dried Meal, Celery Dried Meal, Beet Dried Meal, Dandelion Greens, Dicalcium Phosphate, Ground Limestone, Sorbitol, Calcium Propionate, Salt, Choline Chloride, dl- Methionine, Wheat Middlings, L-Ascorbyl-2-Polyphosphate (source of Vitamin C), dl-Alpha Tocopheryl Acetate (Vitamin E Supplement), Niacin, Calcium Pantothenate, Vitamin A Acetate, Biotin, Vitamin B12 Supplement, Riboflavin-5-Phosphate, Pyridoxine Hydrochloride, Menadione Sodium Bisulfite Complex (source of Vitamin K Activity), Folic Acid, Thiamine Mononitrate, Vitamin D3 Supplement, Ferrous Sulfate, Manganese Oxide, Zinc Oxide, Copper Sulfate, Potassium Iodate, Sodium Selenite, Blue 1, Yellow 5.

PACKAGING

14 oz. Pouch, 20 lb bag - all nitrogen preserved

PARTICLE SIZE

1/4" soft-moist pellet
