

PL Raceway Plus

Premium Dry Post-Larval Diet

The established standard in intensively stocked nursery systems throughout the world. PL Raceway Plus is a premium, nutrient dense formulation designed for application in intensive hatchery and nursery rearing systems.

Customized for intensive production

- Nutrient dense formulation enables reduced feeding and improved water quality.
- Highly digestible marine ingredient selection optimizes feed conversion rates.

Transition the nutrition of your shrimp

- Facilitates acclimation and stocking of healthier post larvae to improve survival through growout.
- Specifically formulated for development of post larvae and juveniles reared in intensive systems.
- Contains **Vpak** (Vitality Pak) to enhance disease resistance.

Advanced feeding techniques

- Supports precision feeding by utilizing carefully selected particle size ranges to support natural variation in animal sizes.
- Feeding recommendations based on weight, not stage of animal.

Disclaimer: Photos of feed may vary from screen appearance, printing and lot production. This is a visual to give you a representation of particle range and color approximate. Consult your representative for a sample today.

GUARANTEED ANALYSIS

Crude Protein	Min 50.0%	Moisture	Max 10.0%
Crude Fat	Min 15.0%	Ash	Max 10.0%
Crude Fiber	Max 1.0%	Phosphorus	Min 0.8%

PARTICLE SIZE & PACKAGING

0	<400 microns	0-2mg	1 & 9.1 kg
1	400-600 microns	2-10mg	1 & 9.1 kg
2	600-850 microns	10-100mg	1 & 9.1 kg
3	850-1200 microns	100-400mg	1 & 9.1 kg

Nitrogen flushed pouches: 1 kg (2.2 lb) 10 per case.

Nitrogen flushed bags: 9.1 kg (20 lb) 2 per case.

INGREDIENTS

A nutritionally balanced highly digestible formulation of animal protein products of marine origin, plant protein (including algae), yeast, fish and vegetable oils, vegetable starches, vitamin and mineral premixes, anti-oxidants, pigments, and biodegradable binders.

		Recommended Feeding Guide (shrimp only)							
Animal wt. (mg)		3	6	12	25	50	100	200	400
Plus 0	0:	0-2mg							
Plus 1	1:	2-10mg							
Plus 2	2:			10-100mg					
Plus 3	3:						100-400mg		

STORAGE INSTRUCTIONS

- Nitrogen flushed bag: best if used within two (2) years from date of manufacture.
- Store in a cool (22° C/72° F), dry, well-ventilated area away from sunlight.
- **Opened bags should be sealed and stored at 0°C (32°F) or lower.**
- Rotate stock to use the old feed first ("first in, first out" principle.)

PRODUCT APPLICATION

This premium larval diet is designed to feed Zoea (Z) through Post Larval (PL) stages of shrimp.

- Recommended for use in medium to high density hatchery and nursery culture systems; for non-intensive nursery systems, refer to PL Raceway 40-9.
- Feed for five (5) to seven (7) days in nursery prior to stocking in growout ponds.
- Consult your area Zeigler technical specialist for additional feed guidance.
