

# Semi-Intensive

"SI" Series - Shrimp Grower Feeds

Semi-intensive shrimp grower is formulated to meet the nutritional requirement of adult *L. vannamei* shrimp. This high quality feed performs well in culture systems stocked at <40/m<sup>2</sup> up to a biomass of 4,000 kg/ha. Zeigler shrimp grower diets are recognized by their consistent quality that delivers excellent survival and growth. Zeigler manufactures to exacting ISO Quality Standards to insure specified water stability and minimal fines; and to be highly digestible; environmentally safe with great attractability to the shrimp; all of which produces a harvest of highly marketable shrimp.

- Recommended densities: <40/m<sup>2</sup>, biomass: <4,000 kg/ha
- Improved FCR, higher survival, and better growth makes semi-intensive a cost effective diet and an excellent means for improving bottom line profitability.
- A rigorous program of specification and random testing ensures the ingredients have been selected for their preferred quality, keen attractant faculty and proven digestibility.
- Formulated for superior digestibility, a balanced mineral content and low phosphorous level to ensure the best pond conditions possible.
- Manufactured in an ISO 9001:2015 Registered Quality Management System certified plant, which assures product consistency and quality.
- Strong, innovative R & D Program ensures the customer benefits from the most up-to-date findings and improvements.
- Shrimp Grower diets are manufactured upon order to insure freshness and quality.

## GUARANTEED ANALYSIS

Crude Protein	Min 35/30%	Moisture	Max 10.0%
Crude Fat	Min 7.0%	Ash	Max 11.0%
Crude Fiber	Max 3.0%		

## PARTICLE SIZE & PACKAGING

3/32" (2.4mm) pellet

25 kg (55 lb.) poly-woven bag, super sacks, and bulk

## INGREDIENTS

Marine proteins, plant proteins, grain and grain by-products, yeast and yeast by-products, vitamin and mineral supplements, Stay-C (a heat and water stable vitamin C), attractants, preservatives, and stabilizers.

## PRODUCT APPLICATION

- Feed semi-intensive shrimp grower to shrimp from size 3 grams until harvest; 3 to 4 times daily; Base the amount of feed for the daily ration on the size and weight of each shrimp and its estimated weekly growth rate; multiplied by the total number of shrimp stocked; and adjusted for estimated mortality rate.
- Consult your area Zeigler technical specialist for additional feed guidance.

## STORAGE INSTRUCTIONS

- Poly-woven bag: best if used within nine (9) months from date of manufacture.
- Store in a cool (22° C/72° F), dry, well-ventilated area away from sunlight.
- Rotate stock to use the old feed first ("first in, first out" principle.)
- Keep bags stacked on pallets to prevent feed from being in direct contact with damp floors and walls. Avoid exposure to insects, pests and direct sunlight.
