

Spirulina Pellets

Complete Color-Enhancing Diet for Tropical Fish

Zeigler Spirulina Pellets are especially formulated as a best quality diet for herbivorous (plant eating) fish. Spirulina pellets are recommended as a completely nutritious diet for algal feeding tropicals and as a supplemental source of spirulina for all ornamental species.

PARTICLE SIZE: 3/32" pellet

PACKAGING: 2-20 lb nitrogen preserved bags per box

FEATURES & BENEFITS

- Highly palatable and digestible for improved acceptance and performance
- Formulated as a completely balanced diet which provides optimum growth and health
- Contains high quality spirulina to bring about brilliant colors
- Contains proteinated trace minerals for higher stability, biological availability and overall fish health
- Excellent water stability, will not cloud water
- Contains extra levels of preservative and antioxidants for a longer shelf life

PRODUCT APPLICATION & STORAGE

- Feed as the sole diet 3-4 times daily. No supplementation is necessary for healthy fish.
- Feed ad libitum – as much as the fish will consume in three (3) minutes of feeding.
- Store in cool, dry place away from sunlight. Maintains nutritive value and shelf life up to two (2) years if properly stored and handled. Frozen storage extends shelf life beyond two (2) years.

GUARANTEED ANALYSIS
