

Aquatic Turtle

MONSTERDIETS

1/8"
floating
pellets

Now the commercial diets used by breeding facilities and zoos around the world are available for you and your reptiles at home. MonsterDiets™ are designed to promote maximum growth while providing a nutritionally balanced diet for your reptile. These diets include all the necessary vitamins and minerals for your animals. MonsterDiets™ also use a stabilized form of Vitamin C to enhance your animal's natural immune system.

Aquatic Turtle MonsterDiet™ is a unique blend of animal and plant proteins since in the wild most aquatic turtle species are omnivorous. In captivity, providing turtles with this type of varied diet can be difficult and risky. This diet alleviates the concerns associated with feeding incomplete nutrition by providing all the necessary nutrients as indicated by leading zoo nutritionists and veterinarians. Aquatic Turtle MonsterDiet™ is formulated to provide the daily nutrients required for maximum growth, health and beauty of aquatic turtles.

FEATURES & BENEFITS

- Floating pellet designed to stimulate natural feeding response.
- Formulated to promote healthy shell development and prevent abnormal growth associated with unbalanced nutrition.
- Provides proper Calcium/Phosphorous ratio to help prevent Metabolic Bone Disease.
- Provides 100% of Daily Nutritional Requirements for most aquatic turtles.
- Supplemented with Vitamin D3 to compensate for limited natural light exposure, although additional UV light is recommended.
- Contains a stabilized form of Vitamin C to enhance your animals natural immune system.

PRODUCT APPLICATION & STORAGE

- Aquatic Turtle Monster Diet™ should be offered daily. Feed no more than what your turtles can eat in 20 - 30 minutes. All uneaten food should be removed daily. Always make all diet changes gradually over the course of several days. Fish, fruits, and vegetables may be offered as an occasional treat but should constitute only a minor portion of the diet. Fresh clean water should be available at all times.
- Shelf Life: Two (2) years from date of manufacture
- Store in a cool, dry area away from sunlight. Rotate stock to use oldest feed first. "First in, first out" principle.

INGREDIENTS

Fish Meal, Wheat Flour, Dehulled Soybean Meal, Poultry By-Product, Wheat, Fish Oil, Soy Lecithin, Yeast Culture, Vitamin A Acetate, Vitamin D3 Supplement, dl-Alpha Tocopheryl Acetate (Vitamin E Supplement), Vitamin B12 Supplement, Riboflavin-5-Phosphate, Niacin, d-Calcium Pantothenate, Menadione Sodium Bisulfite Complex (source of Vitamin K Activity), Folic Acid, Thiamine Mononitrate, Pyridoxine Hydrochloride, Biotin, Choline Chloride, Manganese Proteinates, Zinc Proteinates, Copper Proteinates, Calcium Iodate, Iron Proteinates, Cobalt Proteinates, Calcium Carbonate, Sodium Selenite, L-Ascorbyl-2-Polyphosphate (source of Vitamin C).

PACKAGING

10 oz. Pouch, 15 lb bag - all nitrogen preserved

PARTICLE SIZE

1/8" floating pellet
