Juvenile Iguana

Juvenile Iguana Monster DietTM provides balanced nutrition for young, actively growing iguanas during the most critical of periods. Iguanas are herbivorous, consuming primarily leaves, blossoms and fruit in the wild. Juvenile Iguana Monster DietTM contains natural ingredients such as carrot, celery, beet, parsley, lettuce, spinach and watercress blended together with the proper balance of vitamins and minerals to provide the nutritional requirements of Juvenile Iguanas as indicated by leading zoo nutritionists and reptile veterinarians. No other Iguana diet can trace its development back to research in Central America, guided by the best breeders, zoologists and caretakers in the world.

FEATURES & BENEFITS

- Extremely palatable, stimulating voluntary feeding response.
- Optimum protein/fiber balance proven to promote excellent health and significant growth.
- Provides 100% of daily nutrient requirements.
- Supplemented with Vitamin D3 to compensate for limited natural light exposure, although additional UV light is recommended.
- Optimum Calcium/Phosphorous ratio to help prevent Metabolic Bone Disease.
- Formulated with a stabilized form of Vitamin C to enhance your animals natural immune system.

- Iguana diets should be fed fresh daily. Offer your iguana slightly more than can be eaten in an 8 hour period. All uneaten food should be removed daily.
- Fresh greens and vegetables may be offered as an occasional treat, but should make up only a minor portion of the diet as additional supplementation is not required. always make all diet changes gradually over the course of several days. Fresh clean water should be available at all times.
- Shelf Life: Two (2) years from date of manufacture
- Store in a cool, dry area away from sunlight. Rotate stock to use oldest feed first. "First in, first out" principle.

PACKAGING

14 oz. Pouch, 20 lb bag - all nitrogen preserved

PARTICLE SIZE

3/32" pellet

GUARANTEED ANALYSIS

Crude Protein	Minimum	25.0%
Crude Fat	Minimum	7.0%
Crude Fiber	Maximum	9.0%
Ash	Maximum	11.0%
Moisture	Maximum	13.0%
Vitamin C	Minimum	275 ppm

INGREDIENTS
