

Specialty Flake Foods

Premium All-Purpose Diet for Freshwater and Marine Fish

Zeigler Specialty Flakes are nutritionally balanced all-purpose diets for all types of omnivorous Freshwater and Marine Fish species who feed on invertebrates in the wild. These diets utilize highly digestible marine proteins to increase both palatability and digestibility, while minimizing excreted waste. Increased levels of stable Vitamin C and brewers yeast are included in these diets to promote healthy gill, fin and tissue development.

- #336300 **1. Earthworm Flake** contains dried earthworms which have been known to increase growth and breeding in tropical fish.
- #336320 **2. Plankton/Krill/Spirulina Flake** contains a blend of Plankton, Krill, and Spirulina which are known to enhance natural coloration in tropical fish.
- #336200 **3. Angelfish Flake** is formulated for freshwater angelfish and contains a balanced blend of nutrients rich in protein, minerals and vitamins.
- #336310 **4. Beefheart Flake** contains beef hearts that have been shown to improve coloration and improve reproduction.
- #336311 **5. Egg Yolk Flake** contains dried egg yolk and is perfect for conditioning larval, juvenile, and thin fish. Also ideal for improving egg production in breeding fish.
- #334800 **6. Brine Shrimp Flake** contains high quality brine shrimp that provides optimum growth and health; ideal for picky feeders.

NOTE: Additional Flake Products available include: Tropical, Spirulina, Marine and Goldfish.
