

**Larva Z Plus** is a proven, premium larval feed used throughout the world to produce the highest quality shrimp post-larvae. This nutrient dense dry larval diet is scientifically designed to yield better growth and survival while lowering FCR's and ensuring superior water quality.

- Increased nutrient density reduces required quantity of feed verses competition.
- Semi-buoyant microparticles (slow-sinking).
- Increases survival and decreases stress in larval rearing.
- Contains **Vpak** (Vitality Pak) to support animal health and disease resistance.
- Supports faster growth by promoting more rapid larval molting.
- Ingredients are highly attractable and digestible.
- Highly stable in water.
- A naturally colored diet.
- Nitrogen-preserved to extend shelf-life.
